

# ikasu

smart, cool, sharp, stylish

by Ian Cook

The first thing you'll notice about the hair salon in Norton is the name – emblazoned across the front of the premises in eye-catching hot pink.

Ikasu is a Japanese slang word meaning 'smart, cool, sharp and stylish'. The choice of the name perfectly reflects the ethos of the salon, which manages to combine cutting edge chic with a friendly, welcoming vibe.

Ikasu has cultivated an atmosphere of creativity and passion about hairdressing. Bridal and evening hair is a specialty within the salon and our award winning team is renowned for their outstanding technical abilities, wealth of experience and commitment to continual education and training.

As regular advocates in L'Oreal's academy for bridal hair and famous for our "on venue" bridal packages, we have a great understanding in ensuring the perfect hair for the perfect day.

On the most important day of a bride's life, the only person who can create a hairstyle of her dreams is her hairdresser.

These beautiful looks explain just a few comprehensive bridal hair and beauty services from Ikasu. Whatever your hair length, you will find inspiration in our bridal style gallery.

Ikasu will cater for all your needs ensuring that your day is magical and your hairstyle is perfect!

Creative Director and salon owner Kerry Moseley recognizes that while many other salons offer the normal in bridal hair design, Ikasu goes that much further offering you that personal service and even attending your wedding venue as your personal stylist if so desired.

Ikasu's stylists all have flamboyant and glamorous persona's and love challenges and enjoy making people look a million dollars with gorgeous hairdressing, stunning styling and a belief in a dream.
